

## **Navy Air Combat Environment Test and Evaluation Facility (ACETEF)**

- Provide Research, Development, Test, and Evaluation (RDT&E) Support to ACETEF for Navy Aircraft Equipment and Weapons Systems in an Integrated Multi-Spectral Warfare Environment Using State-of-the-Art Simulation and Stimulation Technology. Support Includes
  - Engineering/Technical
  - Systems Integration
  - Simulation/Stimulation
  - Operations/Maintenance
- Primary RDT&E Support for
  - Electronic Warfare System Integration
  - Sensor Fusion
  - Countermeasures Effectiveness
  - Software Validation
  - Interoperability of System/Subsystem/Components
  - Flight Test Refinement
