

**US Army Transformation - Modularity Coordination Cells (MCC)**

- Support US Army Forces Command (FORSCOM) in Creating Modular “Brigade Based” Units of Action (UA) Using Modularity Concept
  - More Responsive to Regional Combatant Commanders’ Needs
  - Better Employment of Joint Capabilities
  - Facilitates Force Packaging and Rapid Deployment
  - Executes Full-spectrum Combat Operations
- Modularity Concept Focused on Full Doctrine, Organization, Training, Material, Leadership, Personnel, and Facilities (DOTMLPF)
  - Reorganization Governed by Missions and Capabilities Considerations, Rather Than Designed and Implemented Around Equipment and/or Weapons
- SDS Has Supported Army Transformation at
  - Ft. Bragg, NC
  - Ft. Stewart, GA
  - Ft. Bliss, TX
  - Ft. Lewis, WA
